Please be advised that the Department of Resources Recycling and Recovery (CalRecycle), acting as the Solid Waste Enforcement Agency (EA) for the Stanislaus County, has received and approved a Report of Facility Information (RFI) Amendment per Title 27, California Code of Regulations (27 CCR), Section 21665(c). This public notice was prepared pursuant to Title 27 CCR 21660.1.

**Project Description**

Recology Blossom Valley Organics North - Vernalis is an existing mixed solid waste compostable materials handling facility operating under a full Solid Waste Facilities Permit issued on August 20, 2008. The application package to amend the RFI requests the following changes: update to aerated static piles test pilot as a method for composting; and the addition of a mulch and wood chip coloring operation and related equipment.

The EA finds that the proposed changes are consistent with all applicable certified and/or adopted California Environmental Quality Act (CEQA) documents, is consistent with State Minimum Standards, and does not conflict with the terms and conditions in the current Solid Waste Facilities Permit.
